6 Part Webinar Series Increased Acuity = Increased Census

6 Webinars for One Bundled Fee of \$150

Register Now at: www.surveymonkey.com/r/NQTGY6K

Introduction

The *Increased Acuity= Increased Census* webinar series was made possible in conjunction with Specialized Medical Services. It is designed specifically for your clinical care professionals and others who want a better understanding of how the new survey process and the changing service and delivery system impact the complex care needs of today's skilled care residents.

This webinar series will not require you to leave your office – each session will come directly to you through the wonders of technology

and Adobe Connect. If you happen to miss one of the scheduled events, you will be able to catch up via the recorded events.

Overview

Today's skilled care professionals work in a complex and challenging environment. The increasingly complex care needs of high acuity residents call for clinical care specialists who know and understand the latest care practices. As the new survey process rolls out across the state, and as hospitals look to place high acuity residents, LeadingAge Wisconsin offers this webinar series to build your skill set to continue providing quality care.

Schedule & Topics

Each webinar will begin at 10:00 a.m. and will run for approximately 75 minutes.

The schedule and topics for the *Increased Acuity= Increased Census* webinar series is as follows:

Friday, March 16, 2018 – *Special Kickoff Presentation* & *Building Clinical Skills*

Pat Virnig (Director, Bureau of Nursing Home Resident Care) will kick off the webinar series with a brief discussion focusing on the following:

- Observations on the new survey process results/emphasis—what have we learned in the first 90 days?
- What areas are facilities struggling with and what advice does DQA have to offer?
- How can facilities avoid cites by being on top of things, resulting in "corrected past acts of non-compliance?" Under what circumstances will DQA determine past acts of non-compliance with corrective actions being implemented by the facility so that no cite is issued?

After Pat's 30-minute presentation, Theresa Lang will follow with an introduction of building clinical skills/sustain staff skills.

Objectives:

- Identify payer expectations regarding increased acuity residents.
- State how nursing skills are needed to manage increased acuity.
- List how technology can aide in managing increased acuity.
- Discuss education and competency testing for increased acuity.

Friday, April 20, 2018 – *Respiratory (Including Trach Care)*

Objectives:

- Identify the educational needs of nursing staff related to respiratory residents.
- Discuss documentation specifics related to respiratory.

- Describe three types of respiratory assist devices which may be used in place of a ventilator.
- State common errors when administering nebulizer treatments.
- Identify common trach tubes and critical care elements of each.

MONDAY, May 21, 2018 - Cardiac

Objectives:

- Identify the educational needs of nursing staff related to cardiac residents.
- Discuss documentation and assessment specifics related to cardiac conditions.
- Describe the use of ECG in the SNF.
- State common errors when monitoring resident daily weights.

Friday, June 22, 2018 – Complex Wound Care

Objectives:

- Describe wound risk assessments and care planning requirements.
- Discuss skin alteration documentation and common errors.
- Identify common errors when completing wound treatments.

Friday, July 27, 2018 – *Restorative Nursing*

Objectives:

- Identify the impact of restorative nursing on the proposed Medicare RCS-1 Payment system.
- Define restorative nursing and the difference with maintenance restorative programs.
- Describe restorative nursing best practices.
- List common documentation issues regarding restorative nursing.
- State the requirements of who can provide restorative nursing and the MDS scoring requirements.

Friday, August 24, 2018 – *Telemedicine & Reimbursement*

Objectives:

- Identify the role of telemedicine and increased resident acuity.
- State how a facility can charge for telemedicine.
- Discuss the ancillary payment options for special supplies and equipment.
- Describe the difference between facility Part B billing versus DME Part B billing.
- Identify items that the Wisconsin Medicaid program will reimburse above the daily rate.

Each webinar will begin at 10:00 a.m. and will run for approximately 75 minutes.

Spotlight on the Presenter

Theresa A. Lang – Ms. Lang, R.N., BSN, WCC, Vice President Clinical Consulting has been in long-term care for more than 40 years, the last 23 years with Specialized Medical Services.
